

THE GO-TO LAW FIRMS® OF THE WORLD'S LEADING COMPANIES

Which law firms do the world's leading companies rely on to handle their most significant legal matters? The publishers of *Corporate Counsel* magazine surveyed each company's general counsel. That information along with research in key databases such as InCisive Legal Intelligence Online, Litigation Monitor™, LIVEDGAR®, Westlaw®, and others form the basis for each firm's selection as a Go-To Law Firm®.

The surveys and research identified each company's primary outside law firms in each of nine practice areas: banking and finance, corporate transactions/mergers and acquisitions, intellectual property, labor and employment, litigation, regulatory affairs/compliance, securities, Canadian and international matters.

No law firm can pay to be named. Each firm featured in these pages is here because it was named as a Go-To Law Firm.

Choosing outside counsel is an important decision. Use this as a resource to enhance your selection process, benchmark current and prospective outside counsel, and better understand a firm's particular practice expertise.

CLAYTON, HOWARTH & CANNON is ideally prepared to represent clients in all areas of intellectual property law, both in the acquisition and the enforcement of intellectual property assets. From its suburban Salt Lake City location, only miles from world famous mountain resorts, the firm is pleased to serve clients including Fortune 100 businesses, governmental and educational entities and first time independent entrepreneurs from all over the United States and all over the world. The firm's AV® rating reflects the extensive legal and technological expertise of the attorneys in the firm as well as the firm philosophy of service, integrity, ethics, honesty and value.

Karl Cannon is an AV®-rated attorney whose practice focuses on litigation and on U.S. and international patenting of inventions in the areas of mechanical, industrial, and civil engineering, physics, medical products and surgical instruments, mechanics of materials, and fundamental levels of chemical, electrical, electronic and computer-related applications. He also specializes in trademark and copyright prosecution and counseling, licensing and transfer of intellectual property, and IP contracts. Karl holds a Bachelor of Science degree in Civil Engineering and a J.D. from BYU, where he served as an editor for the Journal of Education and Law. He served a judicial internship with the U.S. Court of Appeals for the Federal Circuit (Judge Rader).

Grant R. Clayton, an AV® rated attorney, specializes in U.S. and international patents for mechanical and electrical devices, e-commerce and digital electronics, as well as trademark registrations and enforcement. Grant is an Adjunct Professor of Mechanical Engineering at the University of Utah where he teaches engineering law. Grant has nearly twenty-five years of experience in the preparation, prosecution and enforcement of patents, trademarks, and copyrights for a wide variety of local, regional, national and global clients. Prior to co-founding the firm, he was a partner at Thorpe, North and Western, and prior to that was a patent attorney at Workman Nydegger.

Terrence Edwards holds a B.S. Degree in Zoology from Brigham Young University, and a J.D. from the Northwestern School of Law of Lewis & Clark College where he served as an editor for the Lewis & Clark Law Review, formerly the Journal of Small and Emerging Business Law. Terrence's practice focuses on U.S. and international patent prosecution and patent litigation as well as obtaining U.S. and international trademark registrations and related litigation. His technical experience is focused on the fields of biomedical applications, medical devices and products, surgical instruments and equipment, electro-chemical, mechanical and related technologies.

Alan Howarth is an AV®-rated attorney whose practice focuses on U.S. and international patenting of inventions in the areas of biotechnology, pharmaceuticals, chemistry, and biomedical products, as well as domestic and international trademarks. Alan holds B.S., M.S., and Ph.D. degrees from the University of California-Davis, and a J.D. from Brigham Young University. He also has experience in biotechnology research and teaching, having held appointments at the Universities of California-Davis, Illinois, and Arizona, and has published scientific papers in the fields of virology, molecular genetics, enzymology, microbiology, and molecular evolution.
